

CLOUD-BASED HRMS SYSTEM

Workforce Management

- Onboarding (Lite)**
Collect new hire information and facilitate pairing of new hires with mentors/buddies.
- E-Time**
Configure unlimited shifts, calendars, timesheets, and hour summaries.
- E-Leave**
Multi-level leave approval and escalation features to align with organizational processes.
- E-HR Letter**
Reduce manual work and ensure consistency with pre-built templates.
- E-Overtime**
Auto-proposes overtime hours based on pre-defined criteria for efficiency.
- E-Claim**
Multi-level claim approval, multiple currencies, and allows for multiple claim submissions.
- E-Profile**
Record essential employee information through a secure self-service portal.
- GPS Attendance**
Achieve real-time synchronization for seamless data flow.
- E-Payroll**
Linkable with emplX modules for streamlined payment and deduction processes.

Human Capital Management

- E-Training/ LMS**
Unlimited courses and interactive modules.
- E-Performance Evaluation**
Employee self-assessment, peer-assessment, and third-party/360-degree assessments.
- E-Analytics**
Customizable analytics for clearer workforce dynamics.
